

## Village of Chittenango Waste Removal and Recycling Program

This document contains all the information Village residents will need on a weekly basis for the disposal of recyclable materials and solid waste (trash and garbage), specifically: (1) descriptions of the various categories of solid waste and recyclable materials; (2) any limitations on volume or weight in the various categories; (3) how to prepare waste and recyclable items for curbside pickup; and (4) descriptions of the four pickup routes in the village, the schedule for each route, and exceptions to the normal schedule.

**NOTE:** This entire brochure is available online at [chittenango.org](http://chittenango.org) > DPW > “Click here to ...” or at [mookienet.com/ChittenangoRecycles](http://mookienet.com/ChittenangoRecycles).

### Recent Changes in Materials and Procedures

**Fluorescent Lamps** (tubes and compact fluorescent bulbs) will be in increasing use in the coming years, a result of the federal regulation that requires the phasing out of incandescent bulbs. Since fluorescent products contain small amounts of mercury, it is critical that they be kept out of the county landfill so that there can be no possibility of contamination of the ground water. For this reason they require some special preparation for disposal. Since the village, county and state programs are all relatively new, formal regulations and procedures are still being formulated. The County’s current document states in summary:

**Residents will be able to dispose of mercury based products at the Buyea Road landfill on the first Saturday of each month from 7:10am - 3:00pm. To prepare fluorescent tubes for disposal, place them back in original sleeves or box, or in the sleeve of the replacement tube. Compact Fluorescent Bulbs should be wrapped in one sheet of newspaper and then placed in the specially marked container at the landfill.**

### The Disposal of Some “Unacceptable” Items

The following items are among those listed in this brochure as “Unacceptable” for curbside disposal: **Televisions, Computer Monitors, Propane Tanks, Mattresses and Box Springs, Recliners and Easy Chairs, Sofas and Sofa Beds, other Large Furniture pieces, and Trash Cans in excess of the stated limitation of 4 per week per household.** For all but the last of these (which is a *Village* limitation), the Department of Public Works (DPW) is charged at the landfill on a per piece basis. Homeowners can take these items to the landfill or transfer station themselves (where they will be charged this same fee), or they can arrange with an independent hauler for disposal at the homeowner’s expense.

As a service to Village residents the DPW will, at the homeowner’s request, haul any of these items to the landfill, charging back to the homeowner only the County’s fee for disposal. The costs of this service are (prices are subject to change):

Television sets <sup>1</sup>	\$ 8.00	Computer monitors <sup>1</sup>	\$ 5.00	Propane tanks <sup>2</sup>	\$ 3.00
Mattress	\$ 5.00	Box springs	\$ 5.00	Recliners/Easy Chairs	\$ 5.00
Sofa/Sofa bed	\$10.00	Extra trash cans (each)	\$ 3.00	Other furniture	\$ 5.00 - \$10.00

<sup>1</sup> All types – CRT, LED, LCD, Plasma, and OLED

<sup>2</sup> Valves must be removed

(continued on back cover)

## ***General Overview of Waste Removal and Recycling***

### **ELIGIBILITY:**

Most residences and businesses are eligible for regularly scheduled waste collection by the Village Department of Public Works (DPW). This is considered a normal Village service and is subject to certain procedures explained throughout this brochure. In addition, however, there are some limitations, as explained below.

### **WASTE CATEGORIES:**

There are six general waste categories determined by the Village for weekly curbside pick-up. Further information on content, separation, schedules, routes and limitations will be found in this brochure.

- **COMMON RECYCLABLES** – These are taken to the Madison County Recycling Center. The County will market these recyclables; there is no charge to the Village.
- **SPECIAL RECYCLABLES** – Most are taken to the Madison County Recycling Center. The County will market these recyclables, but may charge the Village for some items.
- **BULK WASTE** – This is taken to the Madison County Landfill. The Village pays a tonnage fee for disposal.
- **CONSTRUCTION DEBRIS** – This is taken to the Madison County Landfill. The Village pays a tonnage fee for disposal.
- **RUBBISH/GARBAGE** – This is taken to the Madison County Landfill. The Village pays a tonnage fee for disposal.
- **YARD WASTE** – This is collected and taken to land owned by the Village. There it is deposited and provides some benefit to wildlife.

**NOTE:** Recycled yard waste (wood chips and mulch) is available free at the Bolivar Road Transfer Station and Lincoln Landfill.

### **CURBSIDE COLLECTION**

General information on separation and removal of waste at curbside is given below. The details of the preparation of the various waste categories for curbside collection are specified in the following sections.

- **SEPARATION OF WASTE** – Items from one waste category **must not be mixed** with items from another category (for example, newspapers must not be mixed in with rubbish/garbage, construction debris must not be mixed in with yard waste, etc.). Further, some items within a waste category may not be mixed (for example, recyclable paper items must not be mixed in with textiles).

Waste categories must be kept **separated at curbside**. Allow several feet between piles of different types of wastes at curbside.

- **ITEMS REJECTED FOR PICKUP** – The Village reserves the right to refuse all or any part of a pick-up in a waste category if: (1) it is not properly prepared for collection; (2) the amount is so large that it appears the service is being misused; or (3) the waste was generated from property other than where the pick-up is scheduled.

Containers in which waste categories are illegally mixed **will not be picked up**.

If it is necessary to leave waste of any category, a rejection notice will be attached by the DPW crew stating the reason that the waste was rejected. Such waste must be removed from curbside immediately and will not be picked up again until the next regularly scheduled collection for that category.

- **ROUTES** – Each eligible Village residence and business is on a regular weekly route. Waste should be placed at the curb no earlier than the evening prior to the regular pick-up day. Yard waste should be placed at curbside no earlier than 48 hours prior to the scheduled pick-up. Wastes should be at curbside no later than 7:00 a.m. on the day of pick-up. (People who are moving and who need to place their waste at curbside earlier than usual should contact the Superintendent of Public Works at [chittadmin@twcny.rr.com](mailto:chittadmin@twcny.rr.com))

Empty containers should be removed from curbside by the end of the scheduled pick-up day.

Uncollected waste with attached rejection notice should be removed immediately.

## CONTAINERS:

Where required, waste materials must be in appropriate containers when placed at curbside. Where containers are required, the following types must be used; any exceptions must be explicitly approved by the Superintendent of Public Works.

- **REGULAR METAL/PLASTIC TRASH CANS** – Use for rubbish/garbage, some types of construction debris and some yard wastes.
- **CLEAR PLASTIC BAGS** – Use for rubbish/garbage, some types of construction debris, and for common recyclables that will not fit in the Green/Blue recycling bins. These bags must be **transparent and designed for trash**. Do **not** use plastic grocery bags or colored bags.
- **GREEN AND BLUE RECYCLING BINS** – These bins are to be used only for **Common Recyclables**, namely, glass, metal and plastic containers. **No other loose recyclables are to be put in these bins**. The green and blue bins are to remain with the property even if the current resident moves. If you move into a property in the Village and find no Green or Blue recycling bin, please contact the Department of Public Works at [chittadmin@twcny.rr.com](mailto:chittadmin@twcny.rr.com).
- **BROWN PAPER BAGS** – Brown paper bags may be used as containers for newspapers, cardboard and other recyclable paper products.
- **RED SYRINGE SAFETY CONTAINERS** – These may be obtained from any Madison County pharmacy at no cost and must be used for the disposal of medical syringes. Once the tops of the containers are **firmly attached and sealed**, the containers should be taken to any county transfer station for disposal..

## LIMITATIONS

The amount of waste in some categories may be limited for each weekly pick-up. Such limitations apply to a parcel of property as it appears on the tax roll.

The owners of businesses, apartment complexes, mobile home parks, and organizations that generate more than the maximum amount of rubbish/garbage noted below are responsible for the removal of the excess. Normally, a private contract with a commercial hauler best handles this additional waste; in such instances the owner is also responsible for the removal of all other waste categories.

The following **limitations** have been established for Village DPW pick-ups. Owners are responsible for the disposal of any excess, or they may wait until the next scheduled collection date. **The excess must not be left at curbside.**

- **CONTAINERS** – Regular Metal or Plastic Containers, in sound condition and fitted with covers, and Clear Plastic Bags, are defined to be those whose contents is listed as 36 gallons or less. No more than four\* (4) Regular Containers may be placed at curbside; but in no case may any container weigh more than 50 pounds, nor may the total weight of all containers (Regular and Plastic Bags) exceed 200 pounds. Regular Containers must be covered, and Plastic Bags must be tied.

\* But see the front and back covers of this brochure for a means of extending this limitation.

- **COMMON RECYCLABLES** – There is no limit for residential pick-up. (Business owners: Contact Superintendent of Public Works for any special limitations.)
- **SPECIAL RECYCLABLES** – There is no limit.
- **VEHICLE TIRES** – **Vehicle tires are not accepted at curbside for disposal.**
- **BULK WASTE** – The combined weight of all items is limited to 300 pounds per week.
- **CONSTRUCTION DEBRIS** – All construction debris, except for rolled carpet, must be placed in containers and satisfy all of the size and weight limitations as stated earlier in this section in the paragraph labeled **CONTAINERS**. Rolled carpet may not exceed 200 pounds.
- **RUBBISH/GARBAGE** – There is a limit of **four 36-gallon containers** (or the equivalent in smaller containers). See the paragraph **CONTAINERS** above for other limitations.
- **YARD WASTE** – Grass clippings will be collected throughout the growing season, but only if placed in open metal or plastic containers. No item of yard waste may exceed 5 feet in length nor weigh more than 50 pounds; in addition there is a **two (2) cubic yard** limitation on yard waste per residence per week.

## ROUTES AND SCHEDULES

See the **Curbside Collection Calendar** on the reverse side for routes, regular scheduled pick-ups, and exceptions to the schedule.

## EXCEPTIONS

There may be occasions when the Village will approve a pick-up on a one-time basis when the amount of waste in some category slightly exceeds the stated limits.

# Waste Categories, Limitations, Preparation for Curbside Pick-up

## ■ COMMON RECYCLABLES

### RECYCLABLE ITEM

### RECYCLING PREPARATION

### UNACCEPTABLE

## ■ GLASS HOUSEHOLD CONTAINERS

- Glass bottles
- Glass jars
- Glass jugs
- Deposit bottles not returned for refund

- Rinse clean
- Remove caps and lids
- Labels and neck rings may be left on
- Clear and colored glass may be mixed

- Broken glass
- Window and auto glass
- Eyeglasses
- Ceramics, pottery, dishes, crystal
- Incandescent and fluorescent lights \*
- Mirrors
- Caps and lids

• **AT CURBSIDE:** Place loose in Green/Blue bins.

• **LIMITATIONS:** None.

But see Front Cover: **Recent Changes in Materials and Procedures** for disposal at the county landfill

## ■ METAL HOUSEHOLD CONTAINERS

- Aluminum and "tin" cans
- Aluminum pie plates and baking pans
- Aluminum foil
- Deposit cans not returned for refund
- Lids cut from "tin" cans
- Aerosol spray cans

- Rinse clean; labels may be left on
- Flattening optional
- Aluminum foil rolled into balls
- Clear and colored glass may be mixed
- Aerosol spray cans **must be empty**

- Oil, paint, pesticide, and other chemical cans
- Soiled aluminum foil and plates
- Paperboard with metal parts
- Other metal items (for example: silverware, small appliances, household batteries)

• **AT CURBSIDE:** Place loose in Green/Blue bins.

• **LIMITATIONS:** None.

## ■ PAPER PRODUCTS (Newspapers, Corrugated and Flat Cardboard, Mail, etc.)

- Newsprint paper including slick inserts
- Telephone books
- Layered (corrugated) cardboard
- Flat cardboard (boxboard)
- Dry food boxes – cereal, cookie, snack, pet food boxes
- Pizza boxes
- Health care, shoe and gift boxes
- Laundry detergent, tissue boxes
- Paper product tubes – paper towel, toilet paper, gift wrap cores
- **Paper** egg cartons
- Cardboard backing from writing pads
- Brown paper grocery or shopping bags
- Junk mail and envelopes
- Magazines and catalogs
- Manila folders, computer paper
- Register and adding machine tapes
- Writing, office and copy paper
- **Paper** gift wrap

- Remove any paper or plastic liners from food containers (cereal, cracker boxes)
  - Tie newspapers in bundles of less than 1 foot thick, or place in brown paper bag
  - All paper products may be placed in brown paper bags or in sealed, clear plastic bags
  - Flatten and stack large amounts of corrugated cardboard in 3'x3' bundles, and tie if possible
- (**Business Owners:** Contact the Superintendent of Public Works for limitations)

- Soiled or wet paper of any kind
- Napkins, tissues, paper towels, cellophane wrapping paper
- Books, paperback and hardbound
- Juice and milk cartons
- Refrigerated or microwave product containers
- Frozen food containers
- Soda and beer cartons
- **Styrofoam** egg cartons
- Packages with plastic or foil coatings or liners
- Carbon paper
- Folders with metal parts
- Gift wrap with plastic or foil coatings

• **AT CURBSIDE:** Place **tied** and **bagged** bundles in, on or next to Green/Blue bins. **None** of these items may be placed **loose** in Green/Blue bins.

• **LIMITATIONS:** None.

## ■ PLASTIC HOUSEHOLD CONTAINERS

- Plastic jugs (milk, water, juice)
- Windshield washer fluid jugs
- Soap and detergent bottles
- Deposit bottles not returned for refund
- Stackable containers (margarine, cottage cheese containers, plastic drinking cups)
- Plastic jars (peanut butter, coffee)
- Plastic bottles (mouth wash, salad dressing)
- Bleach bottles
- Plastic grocery and other bags, magazine Wrappers
- **Any** plastic numbered **1-7** (except as noted in the **UNACCEPTABLE** column)

- Rinse clean
- Drain all containers **thoroughly**
- Milk and water jugs **must be flattened**
- Flattening of other containers optional
- Caps and lids **must be removed**
- Wad up plastic bags, place them in a single plastic bag, tie handles and place in Blue/Green bin
- **Must** bear the recycling symbol

- Bottles that contain hazardous products (auto products, drain cleaner, furniture polish, paint products)
- Plastic toys, pails, buckets, car parts
- Flower pots, egg cartons, tableware
- Plexiglas, Styrofoam
- ~~Pre~~cription medicine bottles
- Caps and lids
- Six-pack holders
- ~~Plastic bags, magazine wrappers~~

• **AT CURBSIDE:** Place loose in Green/Blue bins.

• **LIMITATIONS:** None.

## ■ SPECIAL RECYCLABLES

### RECYCLABLE ITEM

- Household batteries (AA, AAA, C, D, 9 volt, watch, hearing aid, camera, etc.): ordinary, alkaline, rechargeable
- Scrap metal (files, fencing, rain gutters, play equipment, metal toys, shelving, small auto parts, tanks, bed springs)
- Large appliances (stoves, washers, dryers, water heaters)

### RECYCLING PREPATION

- Household batteries **must** be placed in **securely sealed** specially labeled **battery bags** (available at the Village Clerk's Office)
- Remove wood, plastic and other nonmetallic parts from scrap metal
- Scrap metal must not be placed in the Green/Blue Recycling bins
- Place small scraps of metal separately in plastic bags
- Doors on large appliances must be **removed** or **fastened securely**
- Rinse gasoline tanks thoroughly and cut in half

### UNACCEPTABLE

- Automobile and other lead-acid batteries, motor oil and antifreeze
- Refrigerators, freezers, air conditioners and dehumidifiers – any compressor-driven refrigeration equipment
- Vehicle tires
- Used cooking oil \*
- Paint products  
(See special **PAINT PRODUCTS** note under **RUBBISH AND GARBAGE**)

- **AT CURBSIDE:** These items **must** be kept several feet from other waste categories.
- **LIMITATIONS:** None.

## ■ BULK WASTE

### EXAMPLES OF BULK WASTE

- Electronic equipment (radios, stereos)
- Appliances not in the **SPECIAL RECYCLABLES** category
- Large empty pails (paint, driveway sealer buckets)
- Large toys that are not completely metal

### UNACCEPTABLE ITEMS

- Used furniture \* (chairs, sofas, mattresses, lamps) except articles broken down and placed in approved closed containers
- Television sets, computer monitors \*
- Propane tanks \*

- **AT CURBSIDE:** These items **must** be kept several feet from other waste categories.
- **LIMITATIONS:** Combined weight of all items may not exceed 300 pounds (but this weight is *in addition to* the 200 pound per week weight limitation on all other types of solid waste).

---

\* But see **The Disposal of Some "Unacceptable" Items** on the front and back covers of this brochure.

## ■ CONSTRUCTION DEBRIS

### EXAMPLES OF CONSTRUCTION DEBRIS

- Small plumbing fixtures
- Small pieces of lumber, bricks, tile
- Broken glass
- Roofing materials
- Small pieces of sheetrock, plywood, paneling
- Paint
- Carpet

### PREPARATION

- All construction debris must be placed in Regular Metal or Plastic Containers, as defined in the paragraph **LIMITATIONS/CONTAINERS**, and must be fitted with lids.
- Plastic bags, tied at the top, are also acceptable for construction debris, provided they satisfy the weight and size restrictions as described in the paragraph **LIMITATIONS/CONTAINERS**.
- Carpet **must** be rolled and kept dry prior to pick-up
- See special **PAINT PRODUCTS** note under the section **RUBBISH AND GARBAGE** below

- **AT CURBSIDE:** These items **must** be kept several feet from other waste categories.
- **LIMITATIONS:** Containerized construction debris contributes to the four (4) container limit (or equivalent in plastic bags) per residence per week. Rolled carpet must not exceed 200 pounds (but this weight is *in addition to* the 200 pound per week limitation on all other types of solid waste).

## ■ RUBBISH AND GARBAGE

### EXAMPLES OF RUBBISH/GARBAGE

- Food waste (animal and vegetable matter)
- Ceramics, pottery, broken glass, mirrors
- Paper towels and napkins, tissue paper
- Household paperboard containers
- Polystyrene and plastic tableware
- Empty paint, pesticide, oil and chemical containers
- Incandescent light bulbs

### EXAMPLES OF RUBBISH/GARBAGE

- Non-recyclable fabrics, disposable diapers
- **Broken** fluorescent tubes and compact bulbs
- Caps and lids (except "tin" can lids)
- Medical syringes in **red safety containers** \*
- Small household items
- All other items that are neither recyclable nor included in any other waste category

- **PAINT PRODUCTS:** All **latex and oil based paints, varnishes and thinners** are considered **hazardous wastes** unless they are **completely dry and hardened**. In liquid or semi-liquid form, these items are **not acceptable** for disposal in the landfill. In completely dry and hardened form, these items may be placed in with other rubbish and garbage. (Liquid paint products may be made acceptable by mixing with kitty litter or sawdust and exposing to air until completely dry and hardened.) **Lids must be removed from paint cans placed in with rubbish and garbage.**

- **AT CURBSIDE:** Place in metal/plastic trash cans, or in clear plastic bags. Keep several feet from other waste categories.
- **LIMITATIONS:** Limit of **four (4) 36-gallon containers** or the equivalent; no container may weigh more than **50 pounds**.

\* **Red Safety Containers** and instructions for disposal of medical syringes are available at no cost at county pharmacies and transfer stations.

## ■ YARD WASTE

### EXAMPLES OF YARD WASTE

- Small plants, weeds, grass clippings
- Tree branches, shrubs, brush, vines
- Grass clippings
- Sod
- Leaves

### PREPARATION

- Place small plants, leaves, weeds and grass clippings in regular metal or plastic containers; do **not** use plastic bags; containers **must** be left **open**
- Pile brush, shrubs and tree branches as neatly as possible
- **Autumn leaf season only:** Leaves piled at curbside will be picked up by a vacuum machine
- **Spring clean-up season only:** Leaves **only** (no branches, weeds, etc.) may be left in **open clear plastic bags**

- **AT CURBSIDE:** Place open trash cans next to piles of brush. During spring and summer, leaves must be in open trash cans or clear plastic bags. During the autumn leaf season, **leaves must be left loose at curbside for vacuum pickup**; do not mix leaves in with brush or branches. Yard waste must be neatly piled and kept at least six (6) feet from other waste categories. If you leave piles of brush and branches in front of your property for DPW pick-up, make certain that these are back far enough from the curb or road that they do not interfere with traffic or parking.

- **LIMITATIONS:** No item of yard waste may exceed 5 feet in length nor weigh more than 50 pounds. In addition, there is a **two (2) cubic yard** limitation on yard waste per residence per week. (Four cubic yards is approximately the amount of brush that can be piled onto a full-sized pickup truck.

### NOTES:

1. For exceptionally large amounts of yard waste, a DPW truck can be left on the property overnight and loaded by the property owner. Contact the Superintendent of Public Works at [chittadmin@twcny.rr.com](mailto:chittadmin@twcny.rr.com) to schedule this service.
2. At certain times of the year the DPW is unable to complete pickup of yard waste for the entire village in a single day; yard waste left on the scheduled pickup day will normally be removed later in the same week.

# Curbside Collection Calendar

## ■ GENERAL

The Village is divided into four routes for the purpose of collecting waste at curbside each week. The Village DPW will cover one route per day, Tuesday through Friday, to pick up five waste categories: Common Recyclables, Special Recyclables, Bulk Waste, Construction Debris, and Rubbish/Garbage. Yard waste will be picked up weekly on Mondays (mid-April to mid-November) throughout the entire Village. Pickups begin at 7:00 a.m.

## ■ WEEKLY ROUTES AND SCHEDULES

Common Recyclables, Special Recyclables, Bulk Waste, Construction Debris, and Rubbish/Garbage will be picked up according to the following schedule:

**ROUTE A (TUESDAYS)** -- Genesee St. (east of Madison St.), Ceigler Pl., Seneca St., Cliff Rd., McDonnell St., Lennox Ln., Rouse St., Parker Ln., Madison St., Virginia Ln., Brinkerhoff St., Skelding St., Kenyon St., Falls Blvd., Dyke Rd., Kathy St., Valley Dr. East, Valley Dr. West, Garlock Blvd., Brinkerhoff Hill Rd. (Rte. 173), Schuyler Dr., Jacob Ln.

**ROUTE B (WEDNESDAYS)** -- Salt Springs Rd., Tobin Dr., S. Berkey Dr., Laura Ct., S. Webber Dr., Lou St., Hill St., Edwin St., Webber Dr., Bailey St., Forbes Ave., Norton St., Charles St., Cain St., Warren St., Genesee St. (west of Madison St.)

**ROUTE C (THURSDAYS)** -- Hickory Ln., Hawthorne Way, Post Ln., Juneway Dr., Pebblestone Dr., Varick Dr., Walrath Dr., Woodgate Rd., Millstone Cir., Hearthstone Rd., Homestead Cir., Tuscarora Rd., Leta St., Margot Ave., Rondo Ave., Gill St., Horizon Dr., Tom-Tom St., Talbert Dr., Richmond Cir., Bette Cir., Naymik Dr., Charlies Pl., Gloria Ln., Bialek Way, Burning Hollow Dr.

**ROUTE D (FRIDAYS)** -- Arch St., Catherine St., Race St., North St., Russell St., Manor Dr., Lakeport Rd., Water St., Oneida St., Mohawk St., Legion Dr., Lake St., Mead Pl., Ellen Dr., Yates Pl., Moberg Ave., John St., Jill St., Diane Cir., Robert St., Berkey Dr., Lee St., Boyd Ave., Jay St., Alice Dr., Pauline Ave., Button Rd.

## ■ WEEKLY ROUTE AND SCHEDULE FOR YARD WASTE

Complete Village (all streets) each Monday, mid-April to mid-November.

- Watch for changes in pickup schedules in the Village Newsletter, the Village Web site [chittenango.org](http://chittenango.org), or the digital signboard.

(continued from front cover)

To request that the DPW haul one or more of these items to the landfill, **you must notify the Department of Public Works in advance of the weekly pickup.** Contact them at [chittadmin@twcny.rr.com](mailto:chittadmin@twcny.rr.com), giving your name and address, and the "unacceptable" item(s) that you will be leaving at curbside for pickup. Payment must be made prior to pick up date. Payment can be made in person or by mail to:

**Chittenango DPW  
Village Hall  
222 Genesee Street  
Chittenango, NY 13037**

**Under no circumstances should payment - cash or check - be left  
at curbside with the item to be removed!**

(NOTE: If you transport any of these items to the County landfill or transfer station, or have an independent hauler do this on your behalf, you will be charged the County fee for each such item. Be aware that the County fee may differ slightly from the fees listed above for Village removal, since the County uses a punch card system rather than a straight dollar-per-item system. The current County procedures and fees can be found by visiting the County's web site at <http://www.madisoncounty.org/> and following the links to **Departments> Solid Waste & Sanitation> Web Page> Madison County Landfill and Transfer Station Regulations and Fee Schedule - - Residential Permit Holders.** Compare these with the Village's fees to determine your best disposal method.)

In addition to the items noted above, homeowners may recycle, at no cost, large quantities of **Used Cooking Oil** (such as used in deep frying) at the **Madison County Landfill Residential Drop-Off Center.** The oil must be **strained** to remove any solid material and placed in **sealed clear plastic jugs.** Cooking oil may **not** be left at curbside.

Additional copies of this brochure can be obtained at the Village Hall. You may refer any questions to the **Village Clerk** at 687-3936, or to the **Superintendent of Public Works** at [chittadmin@twcny.rr.com](mailto:chittadmin@twcny.rr.com).
